

Rechargeable Bluetooth label printer for desktop or mobile devices

P-touch CUBE Pro (PT-P910BT)

Compact fully featured label and ribbon printer with USB recharging and Bluetooth communication

The P-touch CUBE Pro gives you the flexibility to print labels up to 36mm in width using your PC or Mac, or from your smartphone or tablet using the free desktop and mobile apps.

Produce fully customised labels or ribbons in minutes by choosing from a wide variety of tape cassettes in many colours, sizes and finishes that give your business a professional image.

P-touch CUBE Pro (PT-P910BT)

Key Features:

- Print durable labels in many colours and patterns from 3.5mm up to 36mm in width
- Create luxurious satin ribbons with personalised messages to attach to gifts and give your customers a lasting impression of your company
- Built-in Bluetooth enables wireless printing from your smartphone, tablet, PC or Mac using the free desktop, iOS and Android apps
- Print and recharge at the same time from your computer using the USB cable
- Advanced cutter can print multiple labels joined together in a long strip, keeping them in the correct order and easy to peel

Design and print labels direct from your computer or smartphone

The beauty of the P-touch CUBE Pro is its ability to work how you want, and when you want.

If you prefer to create labels on your desktop computer, use P-touch Editor for PC or Mac for virtually unlimited design options including text, images, frames and barcodes. Even link to your data in Microsoft Excel* to merge and print many labels at once.

However for ultimate convenience connect wirelessly from your smartphone or tablet using Bluetooth and use P-touch Design&Print 2 for simple, elegant labelling with many pre-designed templates available.

Or if you want full customisation of your labels then use the Brother iPrint&Label app to add text and images, change fonts and resize objects as you need. Plus easily create barcodes including QR codes for customers or staff to scan on their mobile device to take them to your website or other important information.

**Only supported on Windows version of P-touch Editor*

Your label printer is only as good as the tapes it uses

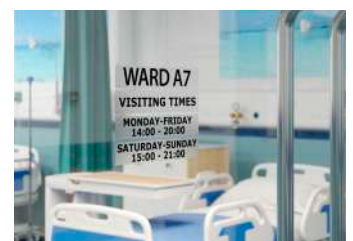

The Brother P-touch CUBE Pro uses TZe tape cassettes, giving you an unrivalled range of choices when it comes to your identification needs. Whether you work in an office or retail, education or healthcare, hospitality or logistics, skilled trades and more, there are hundreds of applications for our labels and ribbons.

Tapes available include:

- Standard labels with various ink and background colour combinations including transparent for shop door signage
- Extra-strong adhesive labels for long term durable labelling whether indoors or outside
- Premium labels with gold and silver glitter backgrounds ideal for staff name badges or hotel signage
- Matt tapes with a non-reflective surface to give a high quality finish
- Patterned background labels including silver lace, gold geometric and red/white gingham
- Pastel labels for a more subtle label
- Metallic silver labels for shelving and signage
- Tamper evident security labels that cannot be reapplied once removed – ideal for asset marking
- Highly visible fluorescent labels for important notices
- Flexible ID labels for cable identification
- Iron-on, wash-proof labels for identifying staff workwear or children's clothing

In addition to labels, the P-touch CUBE Plus can also print luxurious satin ribbons for personalising gifts and more.

Visit your local Brother website to see the full range of tapes available.
