Lenovo TWS YOGA PC Edition

Activate your potential.

The Lenovo TWS YOGA PC Edition, with special Yoga PC dedicated interaction, is designed for your work and entertainment balance. It leverages the computing from PC to offer super clear voice and also leverage the Dolby Atmos® sound from PC. The active noise cancellation and three mic design ENC ensure professional noise cancelling technology so that you could be immersed in the work or entertainment as you want.

Why you need Lenovo TWS YOGA PC Edition

PC dedicated interaction

The PC dedicated interaction such as open to connect, easy to answer the Teams call, touch to switch devices provide you with seamless experience, and you could use the TWS for entertainment and work without worrying about to change the audio device for your work.

Computing sharing of voice ID from PC

With three mic technology and the computing sharing from PC, the TWS recognizes and articulate your voice, so your phone and video calls always sound completely clear and natural.

Active Noise cancellation

Eliminate unwanted background noise with Active Noise Cancellation (ANC) technology. You can immerse yourself in music and podcasts, or simply stay focused, like never before.

Seamless connection

The multipoint connection helps you switch between devices seamlessly. And with the help from the software setting, it also could change to single connection mode and switch between dedicated devices by touching the earbuds without being interrupted by unwanted device.
