

Concrete milling machine

BDS 125 – dry

hand guided

ADVANTAGES

- **Safe**, with a unique and powerful overload electronic
- **Electronic control** to prevent overload, therefore no waiting time until the motor can restart
- **Low operating cost** through an electronic and a mechanical clutch
- **Electronics** for a smooth start and a LED light for optimal milling efficiency
- **Dust-free milling** with excellent dust suction device

Concrete milling machine for **cleaning and smoothing**

- Unique ergonomic design
- For the cleaning and smoothing of hard surfaces and removing of residual colours and old paintwork
- Easy to work close to the wall
- With special adjustable slide plate for working depths in corners
- Dust suction device, Ø 38 mm
- Spindle lock

POWER	TORQUE	SPEED	BLADE Ø	CUTTING DEPTH	THREAD	WEIGHT
1.600 W	2,3 Nm	8.500 rpm	125 mm	1 – 7 mm	22,2 mm	4,5 kg

BDS 125	ID #
Concrete milling machine BDS 125 in metal carrying case and accessories including special slide plate for working deep into the corners	67868
Concrete milling machine BDS 125 with diamond milling plate Premium and special slide plate for working deep into corners	67876
Carrying case	67942
Ring brush set to avoid lateral splashing of water	76679
Diamond milling plate, diameter 125 mm for fine abrasion on concrete, aerated concrete	67884
Diamond milling plate, diameter 125 mm for effective abrasion on concrete, aerated concrete	67900
Diamond milling plate, diameter 125 mm for fine abrasion on limes tone, brick	67892
Diamond milling plate, diameter 125 mm for effective abrasion on lime stone, brick	67918
Diamond milling plate, diameter 125 mm for lime stone, brick, poroton	7411
Diamond milling plate, diameter 125 mm for concrete, lime stone, brick	7268
Hard metal milling plate, diameter 125 mm for concrete, screed	73387
Diamond roughing plate, diameter 125 mm for concrete, granite	73411
