

DEHUMIDIFIERS

DHUM-E Series

DHUM-20 E

Domestic dehumidifiers that are compact, portable and easy to move and setup.
Available in 3 versions, according to dehumidification capacity: 12l, 16l and 20l.

Features:

Super-silent rotary compressor.

Electronic humidistat, allowing you to select the required level of humidity, and ambient humidity indicator.

2 speeds and 3 operating modes:

MANUAL, CONTINUOUS & AUTOMATIC.

Automatic mode will select the level of humidity based on the ambient temperature.

Programmable 1-24 hour run-on timer.

Anti-frost function: activates when the ambient temperature falls below approximately 15°C.

Automatic reset in the event of a power cut.

Automatic shut-off function: activates when the water tank is full.

+ Attributes

Control panel.

Easy-clean air filter.

Continuous water drainage device.

Removable water tank.
