

PAINT SPRAYING
SYSTEM

BRUSH

ROLLER

CLEAN WORKING

Contactless and even paint application - no brush or roller marks, perfect coverage and surface quality, with only a small amount of spray mist.

EASY TO CLEAN

The turbine does not come into contact with paint - all you have to do is rinse the attachment. To do this, dismantle the spray attachment and clean the individual parts thoroughly under running water / solvent.

FAST CHANGEOVER OF PAINT AND MATERIAL

The spray attachment is disconnected from the turbine with one click. This makes cleaning as well as paint and material changes quick and easy.

SAVE TIME

At least 3 x faster than with a brush and roller. Simply mask off and get started. You'll be amazed by how quickly the job is finished.

SUITABLE FOR VIRTUALLY ALL PAINTS

For particularly viscous materials, dilute incrementally by 10%. Use water for water-based materials and appropriate solvents for solvent-based ones. This will ensure successful paint application every time. Exterior masonry paints unfortunately cannot be sprayed with this device.

GET COSY

Want to paint doors, interiors and garden furniture? Bring your ideas to life with paint spraying, tailored to your style. If you enjoy the process but demand perfect results then WAGNER products are exactly what you need. Simply spray it!

ONE BATTERY - MANY DEVICES

The Bosch **POWER FOR ALL ALLIANCE** is one of the largest cross-brand battery systems in the world. Within the Alliance, one battery works for all 18V tools and therefore offers a wide range of applications in the home and garden.

WAGNER is also a partner and gives users of the 18V cordless tools unlimited freedom of movement when carrying out various renovation projects. The 18V batteries are currently compatible with more than 100 different products from 11 manufacturers. Batteries and chargers from different manufacturers are now a thing of the past - you are doing something good for the environment and saving both money and space at the same time.
