

HY-L21

460W LED hybrid fixture

Dimension Drawing

Photometric

Optics

Source:460W white LED

Life:>30000H

Power Supply

AC100-240V 50/60HZ

Switch Power supply

Input Power:550W

Movement

Pan movement:540°/630° optional (16bit)

Tilt movement: 270°(16bit)

Advanced motion system: auto repositioning ,fast, quiet and smooth

Colour

CMY infinite colour mixing+CTO

1 colour wheel with 7 colour + open, directional colour rainbow can be created , even and smooth CMY

Gobos

1 Rotating gobo wheels:

7 interchangeable+open, with shaking effect and gobo wheel can be positioned

1 fixed gobo wheel:

8 interchangeable+open, with gobo shaking effect

Feature

DMX Channels: 26/35CH

1 Rotating gobo wheels:

7 interchangeable+open, with shaking effect and gobo wheel can be positioned

1 fixed gobo wheel:

8 interchangeable+open, with gobo shaking effect

Prism: 1 bidirectional 5-facet rotating prism, prism can be positioned

Focus

5-100% electronic Iris

Shutter: electronic, variable from 1-25HZ or random

Dimming: 0-100% linear dimming

Frost: heavy frost

Zoom: 6°-42° linear zoom

Animation wheel: special dynamic water effect

Protocol: DMX 512, RDM, Artnet(optional)

Other specification

Input signal isolation

Optional ArtNET control

RDM compatible

Intelligent fan noise control, intelligent energy-saving

Dimensions and weight

Packing dimension; 380*460*840mm

Net weight: 27kg
