

TelePod 270 cm

High-quality aluminium telescopic stand, ideal for quick changes in applications where working positions vary

This telescopic clamping pole allows laser measuring devices to be precisely set up and is suitable for maximum room heights of 2.70 metres. The device has a long spring distance in the stand foot as well as a light but robust design.

- Exact and reliable installation of laser measuring instruments
- For room heights up to 2.70 m
- Sturdy aluminium version
- Clamping bracket with fine adjustment and 1/4" thread adapter
- 4-piece design for easy transportation
