Smart Solution High End MFP N700 Series

Design

N700 Series

Design Integration Smart A3 Solution MFP

Upgrade your work environment with winner of world's 3 best product Design Awards

Compact design

Compact design occupies less space but delivers high quality service. Modern and chic look enhances your office space

Performance

Powerful Performance

High speed printing from letter size to A3 size
Experience different class of document solution

High resolution

High resolution achieved by optimizing gear module and improving paper path

PostScript3 emulation

Apply PS3(Adobe) as basic emulation

Finisher for high capacity

Compact size but up to 750-Sheets stacking on finisher output tray

Mass storage memory

1GB mass storage memory and 320GB HDD Card

High speed printing

52ppm(A4), 50ppm(LT) high speed printing

A3 Solution

Print, Copy, Scan and Fax in A3(or 11"x17"- MPT)

- Able to set 75-Sheets at ADF (75g)
- Able to feed mixed size of papers from ADF (Weight range: Simplex-52~ 128g/m², Duplex-52~ 105g/m²)
- Single side scan -> Up to 600mm in length

Durability

Provides 80K PCU with two piece cartridge

MPS featuring

Compatible with major Managed Print Service software programs

Usability

User Friendly

Designed easy and friendly to provide convenient interface that maximizes user efficiency.

User-friendly design

Easy control by 7 inch color touch panel, one step jam clearance door, easy installation for output options

Design for quiet office

Less than 53dB provides quiet & pleasant working environment

Cost effective

Two piece cartridge - High yield toner and drum.

Output tray lighting

LED light at output tray gives visibility when collecting prints

Toner with waste box

Combining toner container and waste box in one-body. Waste box attached to the toner container enables easy and clean exchange
