Get Started:

- 1) Plug the USB cable into your device.
- 2) Scan command barcode of keyboard language from this manual. For example: If you use Italy keyboard, just scan "Italy keyboard". US keyboard is set by default.
- 3) Locate cursor on the place where you want scanner to output characters then you can start to scan.

Barcode Programming

barsum barcode scanners are factory programmed for the most common terminal and communications settings. If you need to change these settings, programming is accomplished by scanning the bar codes in this guide. An asterisk (*) next to an option indicates the default setting.

Keyboard Language

For example: If you use French Keyboard, scan command barcode of "French keyboard". If you use a US keyboard you can ignore this step.

0005000
*American keyboard

0005014
Portugal Keyboard

0005009
French Keyboard

0005010
Germany Keyboard

0005008
Italy Keyboard

0005022
Hungary Keyboard

0005003
Spanish Keyboard

0005018
Turkey Q Keyboard

0005015
Czech Republic Keyboard

FAQ

Problem: Some barcodes cannot be read.

Solution:

- a. Dirty or unclear barcodes might not be read.
- b. The possible reason is that setting for some barcode types are not commonly used is off by default. You need to activate a specific barcode type to get it to work. Please contact the supplier that you've purchased it from or you may go to our official website " www.triple-s.co.jp " to download the complete manual and refer to the part of " Symbolologies".
- c. Clean scanner window.

Problem: Carriage Return/Line Feed Settings.

Solution: Please refer to the part of "Terminator Configurations".

Question: Is there any barcodes for apply or remove suffix ?

Yes, you may go to our official website " www.triple-s.co.jp " to download the complete manual and refer to the part of " prefix and suffix", or turn to customer service for help.

Question: How to solve the messy code problem encountered while using other foreign languages ?

The default language is English. Please refer to "USB Country Keyboard Types" to change the language according to your own needs.
